SUBJECT: Space Requirements for Collection Analysis [redacted] 25X1

a. Vaulting for most of the area.

b. Shielded enclosures (TEMPEST approved) for designated areas to protect against emanations.

c. Environmentally controlled space for tape storage, computers and electronic laboratory equipment.

d. Raised flooring for much of the area.

e. A dependable source and back-up source for electrical power.

f. Geographical proximity [redacted] and the Office of Data Processing - CASD requires access to ODP Central Computers which provide support for processing and analysis functions. This interface might best be served by an enciphered data link. [redacted] 25X1 25X1

3. Hopefully, the information provided above is sufficient to accommodate your planning efforts. If additional information or further definition of the material provided is required, please [redacted] OSO/Executive Officer, [redacted] 25X1
